

LSAM MT

LSAM MT

Moving Table, Single Gantry Industrial Additive Printer

Industrial Power. Flexible Format.

With its moving table design, the LSAM MT offers full print-and-trim capability in a cost-effective, space-saving package—built for serious, continuous production.

Flexible, cost-effective solution with integrated printing and trimming

- Compatible with a wide range of low temperature and high-temperature, industrial-grade materials
- Configurable as “Print Only” or “Print and Trim” system on one platform
- Excellent balance of size, performance, and cost for medium-scale production
- Simplifies large-part additive manufacturing with reduced footprint and operational costs
- Designed for 24/7 industrial production environments

LSAM MT

Print Speed

- Up to ~200 lbs/hour with the standard 40 mm print head

Build Volume

- Moving table options: 10' × 5' or 10' × 10' working area, max vertical build 5'

Print & Trim configuration

- (not simultaneously)
- Optional “Print Only”

Control System

- Ultra 6 SuperControl is a feature rich, high performance CNC control system.
- Intelligent Servo Drives Throughout

Other Key Specs

- High-temperature capability (up to 450 °C)
- Power: 480V three-phase, 60Hz
